

RISING STARS PROGRAM

LET'S DEVELOP THE INDUSTRY TOGETHER

The Rising Stars Program aims to cultivate a strong, well-rounded workforce in the construction industry through supporting youth in vocational programs, as well as minority- and women-owned businesses. Our programs offer hands-on education with subject matter experts to develop diverse skillsets, increase access to resources, and ultimately drive success for those emerging in the industry.

WHY THE RISING STARS PROGRAM?

The construction industry is facing a severe labor shortage, so the Rising Stars program seeks to expand awareness of various career paths while growing the opportunities for existing businesses. Our program offerings focus on meeting people where they are at with individualized training, industry collaboration, and networking with architects, contractors, consultants, building scientists, manufacturers and more. We invite you to be a part of the future of building construction.

PROGRAM OFFERINGS

The Rising Stars program offerings are available independently or as a complete course.

- Next Level Contractor Program
- Youth Development Program

HOW TO GET INVOLVED

Contact David Hutchinson at dbhutchinson@tremcoinc.com with any questions and to learn more about participating.
